Chris – please talk to Utah about us sharing the workbook with Colorado soon, not necessarily waiting until it is final. I want to make sure that Colorado is currently collecting all of the O & G info that will be needed for modeling, SIP/FIP development, etc. If they aren't, this will give them time to gear up to request the info. Also, is there info that CO is collecting that we need? You may want to work with Gail to contact Gordon about getting CO's info soon. Keep updated on the status of conversations with CO. Thanks.

**Subject:** Follow-up to Gordon Pierce call

Hi,

Monica and I spoke with Gordon Pierce this morning about the Uinta Basin EI effort. We asked about what kind of activity data and inventories Colorado has for Rio Blanco county (Rangely monitor), and discussed how to include that data in the Uinta Basin EI. Gordon said they have

three-state data warehouse data, and inventories from the Colorado Oil and Gas Commission that they can share. We agreed to send him a copy of the Air Agency O/G Workbook, when it is finalized, and also cc: Curtis Taipale, Kevin Briggs and Dale Wells of his staff.

Thanks,

Jody
